Abstracts

The US economy ended 2018 with growth approaching 3%. US private sector confidence remains above average, the unemployment rate is close to 4%, and real wage growth has increased to a still modest 1- 1.5% per year. However, the outlook has deteriorated, with the economy is expected to decelerate in 2019-2020, and the risk of an economic contraction rising.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
