## Abstracts

Variety stores had a negligible presence in India in 2019. The likelihood of variety stores becoming a relevant channel in India remains low, as there is no need for these retail outlets, as demand is met by the strong presence of informal retailing in the country.

Euromonitor International's Variety Stores in India report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Product coverage:** Mixed Retailers.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
