## Abstracts

Variety stores registered single-digit growth in 2021 and is expected to return to the 2019 level of sales by 2022. This is greatly attributed to the price-consciousness of consumers, as well as expansion and growth of outlets. Moreover, the overall drop in the sales of variety stores in 2020 was not as pronounced as other mixed retailers, such as department stores.

Euromonitor International's Variety Stores in United Arab Emirates report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
