With the growing health and wellness trend there has been a jump in the prioritisation of fresh and healthy foods to the benefit of fresh vegetables. As this dynamic has unfolded, sales of some processed packaged food items have fallen, pushing retailers to adjust to the trend by boosting and promoting their selection of fresh vegetable options. In this context, the performance of vegetables in 2017 comes as a surprise, with some categories even recording declines in total volume terms. A number..

Euromonitor International's Vegetables in USA report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2013-2017, allowing you to identify the sectors driving growth.
