Abstracts

Following two consecutive years of dynamic, double-digit value growth as a result of pandemic-related restrictions easing, leading to greater mobility outside of the home, vending in Chile recorded sales declines in 2023, as consumers looked to rein in non-essential expenses. However, value sales remained above pre-pandemic levels, supported by vending machines being positioned in prime locations with higher foot traffic, including transportation hubs and shopping centres.

Euromonitor International's Vending in Chile report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Appliances and Electronics Vending, Drinks and Tobacco Vending, Fashion Vending, Foods Vending, Health and Beauty Vending, Home Products Vending, Other Products Vending.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Vending market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
