Abstracts

Sales of vitamins have continued to drop sharply in retail volume terms in 2023, with price inflation unable to prevent the category from recording a decline in current value terms, too. Following the outbreak of COVID-19 there was a surge in demand for vitamins as consumers looked to give their immune system a boost, with significant gains in retail volume terms seen in 2020 and 2021. As COVID-19 fears subsided demanded started to drop off in 2022 and this pattern has continued into 2023 with t...

Euromonitor International's Vitamins in Austria report offers a comprehensive guide to the size and shape of the market at a national level.
