Abstracts

Vitamins are expected to register a decline in volume sales in 2023. The boon from the pandemic is long over and in particular vitamins that claim immune boosting benefits are seeing a significant decline. In fact, volume sales are even lower than pre pandemic levels, as inflation and economic uncertainty leads to consumers cutting back on non-essential consumer health products.

Euromonitor International's Vitamins in Georgia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Multivitamins, Single Vitamins.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Vitamins market;

Pinpoint growth sectors and identify factors driving change;
