## Abstracts

Growing preoccupation with health, greater concern for long-term disease prevention, and greater product variety are driving the VDS market in Latin America. The low current per capita consumption rate leaves much potential for growth, as consumers become more aware of the benefits of VDS products, and disposable incomes rise along with the middle-income segment.

Euromonitor International's Vitamins and Dietary Supplements (VDS) in Latin America global briefing examines the size, growth trends and potential opportunities in the Consumer Health market. The strategic analyses include assessing the impacts of changing regulations, research breakthroughs and public health concerns on both the market and leading companies. Consumer attitudes towards the products and their personal healthcare needs are also explored.

**Product coverage:** Allergy Care, Herbal/Traditional Products, OTC, Paediatric Consumer Health, Sports Nutrition, Vitamins and Dietary Supplements, Weight Management and Wellbeing.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
