## Abstracts

Amidst inflation, geopolitical tensions, and climate disasters causing supply chain disruptions, sustainability gains momentum, compelling action from both businesses and governments. This report brings together insights from Euromonitor's Voice of the Industry survey, which tracks how businesses define, manage and communicate sustainability, in addition to insights from Sustainability Claims Tracker, which shows how companies use product claims to communicate sustainability with consumers.

Euromonitor International's Sustainability reports allows to hear the voice of the industry by exploring specific industry related trends, business campaigns, and attitudes and expectations for sustainability from industry leaders in 5 regions. Reports monitor the levels of sustainability adoption across countries and product categories. Reports also allows to discover where companies and brands lead in terms of a sustainable product portfolio and which ones are falling behind. Use it to learn more about consumers' evolving attitudes, expectations and adoption of sustainability across key global markets.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Sustainability market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
