Abstracts

Following significant declines in 2020 as a result of the pandemic, watches is predicted to record a much improved performance due to pent-up demand, although various restrictions in place over the first half of the year are likely to influence certain purchasing patterns with the continued absence of international tourists resulting in the category relying on domestic consumers to initially drive growth.

Euromonitor International's Watches in Malaysia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2016-2020), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2025 illustrate how the market is set to change.

Product coverage: Watches by Price Band, Watches by type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
