## Abstracts

The year 2019 is full of socioeconomic and political turbulences, with Brexit, international trade disputes, and protectionism adding more to uncertainty. It is important, in this context, for businesses seeking to win the high net worth market to examine the impact of economic risks on global wealth over the medium term in order to navigate uncertainties and even spot and capture opportunities arising out of risks and uncertainties.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
