Abstracts

Wearable electronics in Chile is set to continue to see solid retail volume growth and dynamic current value growth in 2023, as consumer awareness and penetration increase. Despite seeing a deceleration of growth in 2022 and 2023 compared with the previous boom years, the wide presence of such products across retail channels, and the significant offering of different brands, levels of quality, and price ranges means increasing numbers of consumers are giving these products a chance. With the wid...

Euromonitor International's Wearable Electronics in Chile report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
