Abstracts

In 2023, wearable electronics is seeing modest growth in retail volume terms, thanks to the resumption of physical activities in gyms and public spaces post-pandemic. Wearables are now regarded as an important training aid and they can also track wellbeing. A multitude of brands have made these products more easily accessible, but specialist brands are also enjoying growth by offering sophisticated products in the premium segment.

Euromonitor International's Wearable Electronics in Colombia report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Activity Wearables, Smart Wearables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Wearable Electronics market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
