Date: July 2023

Pages: 19

Price: US\$ 990.00 (Single User License)

ID: W1E4C198075EN

## Abstracts

While overall wearables are expected to register a decline in volume sales, smartphones are expected to register volume growth. Sales of activity bands and activity watches are expected to register significant volume decline, as consumers migrate to smartwatches. In addition, the consumer base for smartwatches goes beyond those of fitness enthusiasts and this is also supporting growth. That being said, owners of activity bands and watches are also upgrading to smartwatches.

Euromonitor International's Wearable Electronics in Greece report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
