Abstracts

In Kenya, there is a growing variety of weight management products becoming available, mainly retailed through health food shops and chemists/pharmacies as well as through direct selling. Obesity is becoming a major health concern among the Kenyan population, mainly among those living in urban areas due to the increasing consumption of fast food as well as the rising prevalence of unhealthy lifestyles, which has spurred growth in volume and value sales of weight management products in recent...

Euromonitor International's Weight Management in Kenya report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2010-2014, allowing you to identify the sectors driving growth. Forecasts to 2019 illustrate how the market is set to change.
