Abstracts

Weight management and wellbeing is expected to register an increase in current value sales, though growth in volume sales is expected to be minimal. Rising inflation as a result of a sharp decline in foreign currency reserve is pushing up prices, particularly for imports, and as most products within weight management and wellbeing are imported, this is dampening volume sales. Also, with people being more active now that there are no longer any COVID-19 restrictions, people are not worrying about...

Euromonitor International's Weight Management and Wellbeing in Bolivia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
