## Abstracts

Despite the lifting of COVID-19 restrictions at the end of 2022, in 2023 consumers have not fully emerged from the shadow of COVID-19. Lingering health concerns and illness have led to an increased focus on health and immunity. This heightened awareness has cast a shadow on products related to weight loss, as they are often associated with a potential compromise in immune function. Moreover, with consumer spending relatively subdued in 2023, and not set to fully recover to the pre-pandemic level...

Euromonitor International's Weight Management and Wellbeing in China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
