Abstracts

As a year earlier, most areas of weight management and wellbeing were recording positive volume and value growth in 2023 as consumers looked to shed the weight gained during lockdown and home seclusion, but also due to increased health consciousness. Although having a slim figure for aesthetic reasons is the main driver of demand, increasing awareness of the links between being overweight or obese and non-communicable ailments, such as diabetes, heart disease or cancer, has also helped to encour...

Euromonitor International's Weight Management and Wellbeing in Germany report offers a comprehensive guide to the size and shape of the market at a national level.
