## Abstracts

Although weight management and wellbeing is set to register another solid performance in terms of total current value sales growth in 2023, this is largely due to steep price hikes resulting from persistently high inflation in Hungary. With the rapidly rising cost of living squeezing household budgets and forcing consumers to rein in discretionary spending, all categories are expected to see volume sales decline, and at deeper rates than in 2022. Aside from the challenging economic situation, de...

Euromonitor International's Weight Management and Wellbeing in Hungary report offers a comprehensive guide to the size and shape of the market at a national level.
