## Abstracts

Meal replacement is seeing moderate growth in current value and retail volume terms in 2023, with the category remaining the largest area of weight management and wellbeing in Italy. After having been negatively impacted by the impact of inflation on consumer purchasing power in 2022, the category is set to benefit from recovering demand in 2023, stimulated by the presence of price promotions. This strategy is being applied by meal replacement brands in order to attract more consumers and to hel...
