Abstracts

In 2023, meal replacement and weight loss supplements are projected to record healthy increases in retail volume sales. Dutch consumers are becoming more aware of the health risks involved with obesity. Awareness was heightened by the Coronavirus (COVID-19) pandemic, as people contracting the virus were considered at higher risk of hospitalisation. This realisation, which boosted retail volume sales of meal replacement and weight loss supplements in 2020, remained a growth driver at the end of t...
