Abstracts

Technological advances are creating unprecedented changes across consumer-facing industries. This report provides a holistic view of retail tech adoption, exploring technologies like artificial intelligence, the Internet of Things, augmented reality and automation. It identifies the consumer preferences influencing shopping behaviour, and the factors pushing industry innovation to understand where retailers should be making their tech investments in 2021 and beyond.

Euromonitor International's Where Retailers Should Make their Technology Investments in 2021 and Beyond global briefing offers an insight into the size and shape of the retailing industry, highlights emerging trends, their effects on retailing in markets around the world, on the development of channels and consumers' shopping patterns. It identifies the leading companies and brands, offers strategic analysis of key factors influencing the market – be they the developments of new store types, the importance of non-store retailing, economic/lifestyle influences, private label or pricing issues. Forecasts illustrate how the market is set to change and criteria for success.

Product coverage: Non-Store Retailing, Store-based Retailing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Retailing market;

Pinpoint growth sectors and identify factors driving change;
