## Abstracts

With the end to the zero-COVID policy in the country, and the return to a more normal consumer environment, womenswear is expected to experience a substantial single-digit current value rebound in China in 2023, drawing close to the level of sales seen in 2021, following a contraction in sales in 2022. While the relaxation of pandemic-related policies signifies a return to regular consumer life, the ongoing challenges posed by recurring COVID-19 and influenza outbreaks continue to impact the mar...
