Abstracts

With restrictions and lockdowns having been fully lifted in Singapore, womenswear has been rebounding from the significant drop in sales seen in 2020 due to the pandemic. The category is still not expected to reach the pre-pandemic levels of retail volume and current value sales in 2023, but is expected to surpass these early in the forecast period. With restrictions lifted, most consumers have returned to their normal lives, and have been working from offices, going to school, and attending soc...
