Abstracts

Womenswear registered a weaker performance in 2023, with the rate of both volume and constant value growth slowing compared to the previous year. This was due to the high cost of living, which impacted disposable incomes. While the rate of inflation showed signs of easing, due to lower energy prices, consumers exercised a degree of caution when it came to discretionary spending. At the same time, retailers were forced to raise their prices, due to a general increase in their operating costs. Thi...
