## Abstracts

The COVID-19 pandemic, technological disruption, globalisation reset and changing employee preferences have reshaped the way we work and learn. Businesses need to adopt new working models and become more flexible, people-centric and digitally-enabled to build post-pandemic resilience. At the same time, the education system must adapt to a fast-changing world, become more responsive to labour market needs and prepare current and future generations for the jobs of tomorrow.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
