Abstracts

Despite a stutter in 2022 (13% growth vs 30% in 2021), caused by the prior year's strong performance, price compression, consumer churn and a more uncertain macro environment, the legal cannabis market is expanding rapidly, as wider legalisation and social acceptance drives consumers into the segment from the existing black market, or as new entrants.

Euromonitor International's World Market for Cannabis Global report is designed specifically for current and potential stakeholders in the emerging legal cannabis market. It seeks to provide an in-depth overview of the size and scope of the global cannabis environment, examining the historic and future market trends. Delving into the forces shaping the emerging legal industry including regulatory momentum, dynamics of current illicit consumption, changing consumer behaviour and corporate activity, the report identifies opportunities and challenges across medical, adult-use cannabis and CBD. Forecasts in the reports are available to 2027.

Product coverage: Adult-Use Cannabis, CBD, Medical Cannabis.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
