Abstracts

Wound care is projected to see a steady increase in retail volume sales throughout 2023, accompanied by an even more significant increase in retail current value terms. The category is performing well as it continues to recover from strong declines in retail volume and current value sales in 2020 in the wake of Coronavirus (COVID-19). During the COVID-19 pandemic lockdown measures resulted in work-from-home policies, severe restrictions on travel and a decrease in sports activities and limited p...

Euromonitor International's Wound Care in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level.
