Date: January 2024

Pages: 24

Price: US\$ 990.00 (Single User License)

ID: W3DFF47F707EN

Abstracts

Womenswear in Nigeria recorded a strong decline in volume sales in 2023 due to the challenging economic conditions in the country, with value growth being largely due to significant price increases. High inflation limited consumer spending power whilst the depreciation of the local currency impacted heavily on pricing as most of the imported womenswear was impacted by strong price increases as the naira depreciated against the US dollar.

Euromonitor International's Womenswear in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023 and analysis by distribution format allowing you to identify the sectors driving growth.
