## Abstracts

Wuhan is located in central China, at the major river ways connecting the city to the country's coastal areas. The convenient geographic location has helped the city to prosper as a hub for manufacturing, logistics and education. Wuhan is striving to take a step forward and rise beyond its regional role to become an international megacity. The resulting large infrastructure development projects and the influx of foreign nationals shape the everyday lives of locals.

Euromonitor's City Review report

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

### Why buy this report?

Get a detailed picture of the Cities market;
