Abstracts

The exterior insulation and finish system (EIFS) market is experiencing significant growth, poised to reach a staggering USD 168.21 billion by 2033. This boom, with a projected CAGR of 14.63%, comes from a strong 2023 baseline of USD 92.44 billion. EIFS is a popular exterior wall treatment prized for its ability to boost energy efficiency and provide design flexibility. It's no surprise then, that the market was already valued at around USD 90.2 billion in 2022 and is expected to reach USD 160.3 billion by 2028 with a CAGR of 10.1%. While the global rise in construction spending fuels this growth, the availability of eco-friendly alternatives for insulation presents a potential challenge. Fortunately, EIFS remains a compelling option due to its energy-saving properties, attractive aesthetics, and cost-effectiveness.
