## **Abstracts**

[ 176 + Pages Research Report ] Asia Pacific Automotive Aftermarket to surpass USD 149.47 billion by 2031 from USD 90.58 billion in 2021 at a CAGR of 5.14 % in the coming years, i.e., 2021-31.

### **Product Overview**

The automotive aftermarket market is the major sector of the automotive industry including the automotive part businesses and automotive service industry. Automotive parts include bodies, chassis, interiors, mirrors, closures, roof systems, exteriors, seating, powertrains, electronics, and modules. All these parts and components are installed in a vehicle to offer the best driving experience to clients.

### **Market Highlights**

Asia Pacific Automotive Aftermarket is expected to project a notable CAGR of 4.2 % in 2031.

Global Asia Pacific Automotive Aftermarket to surpass USD 149.47 billion by 2031 from USD 90.58 billion in 2021 at a CAGR of 5.14 % in the coming years, i.e., 2021-31. The increasing requirement for scheduled servicing & maintenance to improve an aging vehicle's lifetime years is boosting the regional industry growth. The growing

penetration of OEMs in aftermarket activities coupled with the consolidation of parts distributors is providing a positive outlook for market expansion.

#### Global Asia Pacific Automotive Aftermarket: Segments

Wear and Tear segment to grow with the highest CAGR during 2021-31

Global Asia Pacific Automotive Aftermarket is segmented by Type into Crash-Relevant Parts, Appearance and Accessories, Wear and Tear Parts, and Diagnostics Products and Services. During the forecast period, the Wear and Tear Parts segment is estimated to hold the biggest market share and increase at the largest rate. This can be attributed to the short life span of these components. By the name, it suggests these parts are expected to be put in rough use and hence need to be replaced continuously which ultimately drives the Wear and Tear segment of the Automotive Aftermarket.

Offline Distribution Channel segment to grow with the highest CAGR during 2020-30

Asia Pacific Automotive Aftermarket is divided by Distribution Channel into Online Distribution Channel, Offline Distribution Channel. During the forecast period, Offline Distribution Channel will be the fastest-growing market, and it is expected to dominate the market, this is due to the exam's inability of the product. If a customer were to buy a product, they like to see and examine the product physically. This is the significant reason that boosts the Offline Distribution Channel segment.

#### Market Dynamics

##### Drivers

Rising demand for replacement parts

Rising maintenance requirements for excessive tension owing to vehicles' aging and poor road conditions will drive the demand for aftermarket parts. Factors including low production expenses, an increasing number of manufacturers, and a rising number of accidents will further augment the market growth.

Growing Innovations to Comply with Stringent Norms

The rising demand for hybrid powertrain systems in vehicles and the enactment of stringent norms are a few of the major factors boosting the growth of the automotive component systems market. With the increasing concern on environmental pollution, all the countries in the region have been extensively working to tackle vehicle emissions.

Therefore, boosting the Asia Pacific Automotive Aftermarket.

Restraint

High competition

The highly crowded market with competitors ranging from small-scale independent players to big corporates is one of the main factors that hamper the market growth.

Global Asia Pacific Automotive Aftermarket: Regions

Global Asia Pacific Automotive Aftermarket is segmented based on regional analysis into the following major regions: China, India, Indonesia, Malaysia, and Thailand. Based on geography, China dominated the Asia Pacific aftermarket industry with about half the market share of the Asia Pacific automotive aftermarket industry. On the other hand, the South East region is the fastest-growing region for the automotive aftermarket industry majorly driven by Indonesia, Malaysia, and Thailand. Nevertheless, the pace of growth in the Asia Pacific aftermarket industry is expectable to slow down in the future, mainly because of the general slowdown of China's economic growth in the coming years.

Global Asia Pacific Automotive Aftermarket is further segmented by region into:
