Abstracts

Autologous Stem Cell & Non-stem Cell Therapies Market is projected to exhibit a Compound Annual Growth Rate (CAGR) of 21% during the forecast span from 2024 to 2034. In 2023, the market size was assessed at USD 5.7 billion and is projected to reach USD 46.3 billion by the completion of 2034.

Stem cells are special cells capable of developing into various cell types in the body. In autologous therapy, these stem cells are harvested from the patient's own body, typically from bone marrow or fat tissue, and reintroduced after processing to treat specific conditions. This approach leverages the body's natural healing capabilities to repair damaged tissues or organs. In contrast, non-stem cell therapies do not involve stem cells but use other cell types or substances to facilitate healing. Examples include platelet-rich plasma (PRP) injections, which use concentrated blood platelets from the patient to promote healing, and growth factor therapies, which utilize proteins to stimulate tissue repair. While non-stem cell therapies do not employ stem cells, they are

effective in treating various medical conditions by enhancing the body's natural healing processes.

MARKET HIGHLIGHTS

Autologous Stem Cell & Non-stem Cell Therapies Market is expected to reach USD 46.3 billion during the forecast period, due to advancements in regenerative medicine and increasing applications in treating various diseases. Autologous stem cell therapies, which use a patient's own cells, offer personalized treatment options with a reduced risk of rejection, showing promise in treating conditions like cancer, cardiovascular diseases, and neurological disorders. Similarly, autologous non-stem cell therapies are gaining popularity for their effectiveness in tissue repair and immune modulation. Key market trends include increased research and development activities, collaborations between biotech companies and academic institutions, and regulatory reforms facilitating clinical trials and market entry. However, challenges such as high treatment costs, limited reimbursement policies, and ethical concerns regarding stem cell use remain significant barriers to market growth. Nonetheless, the market holds promising growth potential as healthcare systems evolve and patient demand for innovative treatments increases.

Autologous Stem Cell and Non stem Cell Therapies Market Segments:

By Type

MARKET DYNAMICS

Growth Drivers

Technological Advancements is Expected to Foster Market Expansion

Increasing Prevalence of Chronic Diseases Will Contribute to Market Growth

Restraint

High Treatment Costs Can Limit the Growth of the Autologous Stem Cell & Non-stem Cell Therapies Market

Key Players

Takeda Pharmaceutical Company Limited

Medipost Co., Ltd.

Vericel Corporation

Holostem Terapie Avanzate Srl

NuVasive, Inc.

BrainStorm Cell Therapeutics Inc.

Anterogen Co., Ltd.

Osiris Therapeutics, Inc.

Fibrocell Science, Inc.

JCR Pharmaceuticals Co., Ltd.

Smith & Nephew plc

Dendreon Pharmaceuticals LLC

MEDIPOST

Organogenesis Inc.

Kolon TissueGene, Inc.

Other Prominent Players (Company Overview, Business Strategy, Key Product Offerings, Financial Performance, Key Performance Indicators, Risk Analysis, Recent Development, Regional Presence, SWOT Analysis)

Global Laboratory Temperature Control Units Market is further segmented by region into:

North America Market Size, Share, Trends, Opportunities, Y-o-Y Growth, CAG.R – United States and Canada

Latin America Market Size, Share, Trends, Opportunities, Y-o-Y Growth, CAGR – Mexico, Argentina, Brazil and Rest of Latin America

Europe Market Size, Share, Trends, Opportunities, Y-o-Y Growth, CAGR – United Kingdom, France, Germany, Italy, Spain, Belgium, Hungary, Luxembourg, Netherlands, Poland, NORDIC, Russia, Turkey and Rest of Europe

Asia Pacific Market Size, Share, Trends, Opportunities, Y-o-Y Growth, CAGR – India, China, South Korea, Japan, Malaysia, Indonesia, New Zealand, Australia and Rest of APAC

Middle East and Africa Market Size, Share, Trends, Opportunities, Y-o-Y

Growth, CAGR – North Africa, Israel, GCC, South Africa and Rest of MENA

Reasons to Purchase this Report

Qualitative and quantitative analysis of the market based on segmentation involving both economic as well as non-economic factors

Provision of market value (USD Billion) data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry with respect to recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market of various perspectives through Porter's five forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come

3-month post-sales analyst support.
