Product overview

E-reader is a portable electronic device designed mainly for reading digital data such as e-books, journals, and other documents which can also be read using a variety of other electronic devices. Some of the most commonly e-reading devices include Amazon Kindle, Barnes and Nobles' Nook, kobo readers, Sony Reader and Pandigital. E-reader is specially designed to download, install, store, and e-version of newspapers, magazines, and books. E-readers are available in various sizes, which allows reading at a magnified size of alphabets.

Market Highlights

The E-reader Market is predicted to project a notable CAGR of 3.59% in 2031.

Increased use of technology and high network fuel industry growth for the next ten

years. Increased global infrastructure spending is expected to drive demand over the forecast period. In addition to industry growth, E-reader Market penetration is expected to rise above the forecast level. On the other hand, increasing Investment by the major players in new environmentally friendly techniques to produce e-reader will create more opportunities that will result in the growth of the E-reader Market over the forecast period.

E-reader Market: Segments

LCD segment to grow with the highest CAGR during 2021-2031

E-reader Market is segmented by Screen-type into E-Link display & LCD Screen. The LCD Screen reported for the major share. As it provides a larger viewing experience when viewed from distance more than 2 meters apart. The vibrant colors accessed by the advanced CRT further enhance the activity. These components drive the increment of the LCD market segment.

Wi-Fi segment to grow with the highest CSGR during 2021-2031

Depending on the connectivity, the market is segmented Wi-fi and Wi-Fi/3G and 4G connectivity. The Wi-Fi segment is estimated to a major industrial glove market owing to rapid growth across developing nations. The Wi-Fi-connected e-book readers beat out the latter by a small margin. The developments of mobile networks and the entry of 5G networks will soon enable producers to utilize the new generation of networks into devices for the advanced benefits.

E-reader Market: Market Dynamics

Drivers

Advancement in Battery Technology

Development in battery technology aimed at increasing battery durability have significantly encouraged e-reader usage. The advancement of improved display technologies for alleviating readability is projected to play a pivotal role in the e-readers being considered as attractive scenarios and alternatives for traditional books. With internet connectivity, e-readers provide users an option to search the meaning of complex vocabulary. These components are estimated to drive the demand for the Safety Glove market in the forecast period.

Rise in Demand for Linked Device

The rising demand for linked devices and digital education globally is causing a shift in e-learning patterns in the worldwide education sectors. In 2020, the global e-learning industry was estimated at USD 24410 million and is expected to reach the USD 35982.46 million by 2031. Digital improvements in the education sector, especially in e-learning are estimated to change students' and other users' personal learning experiences.

Restraints

Eye Strain

Eye Strain caused by continuous exposure to the screen may obstruct product usage as users may choose traditional books instead to their electronic counterparts. The Electronic reader consists of various hardware and software components, the possibility of e-readers being hampered due to malfunctioning to components which may deter customers from purchasing these devices. The existence of many customers averse to spending extra on purchasing e-readers is expected to keep the market buoyant over the forecasted period.

Effects of COVID19 in the E-reader Market

A large number of E-reader Market companies felt the impact of the COVID19 pandemic in multiple dimensions and now emphasize sustained growth in the long-term future. The unlock is again creating the market situation normal. When the restrictions will be lifted the production of E-reader Market is likely to be decreasing due to the low availability of workers. Overall, it can be concluded that after pandemic the market growth of e-reader can be seen in a positive slope.
