## **Abstracts**

[179+ Pages Research Report] Global Espresso Coffee Makers to surpass USD 6241.73 million by 2030 from USD 3275.95 million in 2020 at a CAGR of 5.7% in the coming years, i.e., 2021-30.

### **Product Overview**

Espresso is a traditional Italian beverage that has become popular among coffee drinkers all over the world. It's made by expressing or forcing a little amount of nearly hot water through finely-ground coffee beans under pressure. The finished result is referred to as a shot, and it has a rich, creamy flavor. It can be drunk straight or used as the base for various coffee drinks such as cappuccino, latte, macchiato, ristretto, or long black. The coffee machine is very significant in the coffee industry. Trends in the use of modern varieties of coffee machines vary depending on the café location.

### **Market Highlights**

Global Espresso Coffee Makers market is expected to project a notable CAGR of 5.7% in 2030.

Coffee consumption is expected to increase as consumer preferences and knowledge of health benefits change. In both developed and developing countries, the number of coffee machines has increased. As the population of developing countries grows, so does the demand for out-of-home and quality coffee, resulting in an increase in café's

and restaurants.

### Global Espresso Coffee Makers: Segments

Drip Coffee Machine segment to grow with the highest CAGR during 2020-30

Global Espresso Coffee Makers market is segmented by type into Drip Coffee Machine, Steam Coffee Machine, Capsule Coffee Machine, and Others. The Drip Coffee Machine segment held the largest market share in the year 2020 due to the increasing global demand for coffee machines and restaurants. Due to their high durability and the different appearance of the products, consumers prefer to drop coffee machines. The key players are highlighting the preferences of consumers and incorporating multiple new advancements of products in the market with concentrating on the quality of coffee as well as ease-of-use. The main players, therefore, expect these strategies to support the firms to raise their sales and to complement coffee-making market growth.

Commercial segment to grow with the highest CAGR during 2020-30

Global Espresso Coffee Makers market is divided by application into residential, and commercial. Over the forecast period, the commercial segment is projected to expand at the fastest pace. Demand for coffee makers is projected to accelerate significantly due to increasing investment in commercial spaces, including airports, hospitals, hotels, and restaurants. The ease with which the brands offer their products and the cost of sale and purchase are some of the key drivers of the market. Increased sales of steam coffee machines are expected to generate high demand for commercial coffee makers.

### Market Dynamics

#### Drivers

Popularity of coffee and consumer knowledge of low sugar beverages

The popularity of instant non-alcoholic beverages like coffee in restaurants and corporate cafeterias is propelling the coffee machine market forward. When utilized in coffee shops and office cafeterias, coffee machines reduce the time and effort required to make a cup of coffee. Millennials' increased need for non-alcoholic beverages, consumer knowledge of low-sugar and non-alcoholic beverages, hectic work schedules, and changing consumer tastes are just a few of the factors that have contributed to the surge in popularity of instant non-alcoholic beverages like coffee.

Developing raw materials and in espresso machines in restaurants

Due to rising coffee demand, coffee suppliers are investing inadequate equipment and developing new methods, such as coffee capsules, to deliver better-tasting coffee as more profitable possibilities. The growing use of coffee machines in restaurants and corporate cafeterias to meet the rising demand for instant non-alcoholic beverages like

coffee is driving up demand for coffee capsules, boosting the coffee machines market's development.

#### Restraint

High price of technologically advanced coffee machines

The high price of technologically advanced coffee machines may be a major barrier to end-user demand. During the assessment period, an increase in the number of private coffee machinery companies could stifle market expansion.

#### Global Espresso Coffee Makers: Key Players
