PRODUCT OVERVIEW

Food Additives Market size was USD 88.85 billion in 2021 and projected to grow from USD 99.2 billion in 2023 to USD 164.1 billion by 2032, exhibiting a CAGR of 5.7% during the forecast period.

Food Additives are substances that improve the colour, flavour and aroma of food.

Food additives are utilized to meet a requirement like upgrading durability and preservation. New food additives are being created to reach the increasing consumer demand for processed foods. Natural food additives are obtained from natural raw sources like plants, animals etc. and several synthetic food additives are also present in the market. Commonly used natural food additives are salt and sugar which were used traditionally by people to preserve food and improve their flavour.

MARKET HIGHLIGHTS

Food Additives Market is expected to reach USD 164.1 billion, growing at a CAGR of 5.7% during forecast period owing to the high requirement for preserving food from spoilage by using food additives which is expected to boost the growth of the Food Additives market. Food additives are included indirectly in the food material to improve the handling of food when stored and packed. Food additives play a vital role in packaging and processed food industry as additives possess property of improving palatability, increase shelf-life of product and enhancing taste of the food item.

Reasons to Purchase this Report

Qualitative and quantitative analysis of the market based on segmentation involving both economic as well as non-economic factors

Provision of market value (USD Billion) data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry with respect to recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market of various perspectives through Porter's five forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come
