Geothermal Energy Market Size, Share, and Analysis, By Type (Flash Cycle, Binary Cycle, Dry Steam), By Application (Commercial, Industrial, Residential, Others) and Regional Forecasts, 2022-2032

PRODUCT OVERVIEW

Geothermal Energy Market size was USD 41.23 billion in 2021 and projected to grow from USD 46.8 billion in 2023 to USD 84 billion by 2032, exhibiting a CAGR of 6.7% during the forecast period.

Geothermal energy is reusable, green, low-carbon and sustainable energy identified by clean, huge reserve, wide distribution, environmental protection and stable. Rising necessity for clean energy and wide applications along with growing geothermal power generation globally is driving the market growth. Geothermal energy utilizes heat below the ground and is required for different needs, including heating, generating electricity, cooling etc. Various advancements in technologies is resulting in the capturing of energy at high volumes. Geothermal energy is the thermal energy in the crust of earth which evolves from the planet's formation and from decay of radioactive materials.

MARKET HIGHLIGHTS

Geothermal Energy Market is expected to reach USD 84 billion, growing at a CAGR of 6.7% during forecast period owing to the growing requirement for electricity,

especially clean electricity worldwide. The focus on boosting production of clean electricity to reach the increasing demand is anticipated to drive the market growth. Increasing demand along with the government's regulations for production of 35% electricity from non-fossil sources by 2024 is fostering the necessity for renewable energy sources. Geothermal energy is utilized to heat separate buildings directly and for heating numerous buildings with a district heating system. The increasing demand for geothermal energy is anticipated to boost the growth of Geothermal Energy market.

MARKET DYNAMICS

Growth Drivers

Growing Necessity for Geothermal Energy is Expected to Boost the Growth of the Market

Increasing Demand for Heating is Expected to Boost the Growth of the Market

Restraint

Other Energy Sources Utilization May Restrain the Growth of the Market

Key Players

Calpine

Ormat Technologies Inc.

Mitsubishi Corporation

EthosEnergy

Reasons to Purchase this Report

Qualitative and quantitative analysis of the market based on segmentation involving both economic as well as non-economic factors

Provision of market value (USD Billion) data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry with respect to recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market of various perspectives through Porter's five forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come

3-month post-sales analyst support.
