Market Overview

Commercial Shipbuilding is a process of shipbuilding along with floating vessels, especially for commercial purposes. The building process takes place inside a particular building, i.e. Shipyards known as shipbuilders, by specialized experts. There are several types of shipbuilding on the market, namely: container ships, tankers, fishing vessels, specialist ships, and passenger ships.

Market Highlights

Global Commercial Shipbuilding Comprehensive Market is estimated to reach the market share of USD XXXX billion from USD XXXX billion in 2019. The Commercial Shipbuilding Market is projected to grow at a CAGR of XX% during the forecast period, i.e., 2020-2030. The market is anticipated to grow due to several reasons. The major driving forces of the market are expected to be factors such as growing maritime-borne commerce, rising disposable incomes, efficient energy utilization, new mergers, and rising demand for environmental-friendly ships. Furthermore, the escalating number of

passenger sailing is expected to fuel the growth of the commercial shipbuilding market. Associated with increased FDI, enhanced customer buying power, and growing population in developing economies have increased the demand for commercial shipbuilding. Additionally, rapid industrial development and economic liberalization have increased the amount of trade between countries. Shipping has emerged as a pocket-friendly and emits fewer carbon units.

Global Commercial Shipbuilding Comprehensive Market Analysis (2019-2030)

Recent Highlights

In October 2019, Samsung Heavy Industries has taken the lead in the large-scale vessels market by bagging orders for ultra-large containerships, valued at more than KRW 1 trillion.

Global Commercial Shipbuilding Comprehensive Market: Segments

Passenger Transport segment is anticipated to drive the overall market growth during the forecast period

On the basis of application, the global commercial shipbuilding market is categorized into cargo transport, passenger transport, and others. Cargo transport has remained a dominant stakeholder of the commercial shipbuilding market with a market share of USD XXXX million in 2019. During the forecast period, the Passenger transport system is likely to boost the commercial shipbuilding market due to water transport being the most cost-effective mode of transportation, improving the standard of living of people in developing economies where the population is growing and does not require a huge investment.

Tankers and Bulkers segment to grow at a CAGR of XX%, propelling a huge amount in total revenue

On the basis of product type, the commercial shipbuilding market is segmented into Cargo ships, Tankers, Fishing Boats, Specialist Ships, Passenger Ships, and Others. The tankers and bulkers segment is likely to fuel market growth. Growing demand in

emerging economies for freight forwarders and energy use has driven global demands for bulkers and tankers. As a result of an increase in the adoption by domestic shipbuilders of advanced technology-based shipbuilding equipment, the commercial shipbuilding segment is likely to hold a market share of USD XXXX million by 2030.

Global Commercial Shipbuilding Comprehensive Market: Drivers & Restraints

Drivers: Increased Water Transportation

The increase in the maritime transportation of goods, humans, and other things is one of the major factors which are boosting the commercial shipbuilding market. Moreover, after the LPG reforms, there has been rapid industrialization, and trade policies has become quite liberal propelling the volume of international trade. Foreign direct investments have increased significantly which has helped people to earn more and improve their standard of living. These factors coupled with significant innovations in the shipbuilding market will drive the growth of the market crazily.

Restraints: Increasing Competition from Rivals

As the number of players has increased in the shipbuilding market, there has been a significant increase in competition which poses a serious threat to the other rivals' growth in the market. The innovation of new technologies and fuel-efficient techniques are likely to gain more attention in the forecast period.

Global Commercial Shipbuilding Comprehensive Market: Regions

The global commercial shipbuilding market is segmented on the basis of regional analysis into five major regions. These include North America, Latin America, Europe, Asia-Pacific, and the Rest of the world is classified as Middle-East and Africa.

Asia-Pacific is projected to be the fastest-growing region with a CAGR of XX%

North America and Europe held the largest market share in 2019 due to the presence of various vendors. But for numerous factors, the Asia-Pacific region is seeing rapid market growth, such as increasing regional maritime transportation, improving the standard of living, and various policies implemented for developments in AI technology. During the forecast period, over 86% of overall market growth to originate mainly from

China, South Korea, and Japan. Hence, APAC is to drive the overall growth of the market in the forecasted period.
