## Abstracts

Network Slicing Market was valued at USD $720 million in 2026 and is projected to reach USD $12.24 billion by 2035, registering a CAGR of 37.0% across the forecast period. The Network Slicing Market continues to expand as rising cross-industry adoption, expanding regulatory clarity, and growing capital investment across both developed and emerging markets reshape demand across the value chain.

**“Hardware is projected to hold the largest share of the Network Slicing Market through 2035.”** This segment continues to gain traction owing to strong existing adoption, favorable total cost of ownership, and vendors bundling advisory and integration services around it to lengthen customer relationships within the Network Slicing Market.

**“Telecom Operators is likely to remain the leading end-user segment of the Network Slicing Market.”** Budget cycles among these buyers are lengthening as procurement teams weigh total cost of ownership more heavily than upfront price, reshaping how vendors package and price network slicing offerings for 2026-2035.

**“Europe is projected to be the fastest-growing region in the network slicing market between 2026 and 2035.”** Europe outpaces other regions on the back of
