Global Oil & Gas Downhole Cables Comprehensive Market By type (tubing encapsulated cable, fiber optic cable, electrical submersible pump cable and others); By installation (overhead and underground); By application (into oil & gas production, well monitoring, instrumentation & control, pressure sensing, data collection, and powering downhole equipment) and Region -Analysis of Market Size, Share and Trends for 2014 - 2019 and Forecasts to 2030

PRODUCT OVERVIEW

Downhole Cables are cables used in oil and gas production industries designed to withstand harsh environments and pressures. They are unique to this industry as they are employed for sensor cables, control cables, and data and power transmission cables. They are used for data transmission, in oil wells, pipelines, underwater areas and drive centrifugal pipes. Oil and gas drilling is one of the most difficult jobs and

requires constant data for smooth operation and control and the installation of downhole cables helps in achieving the same.

MARKET HIGHLIGHTS

Increased population and rise in disposable income are factors influencing the market growth. Technological advancements and increased production also act as a driving force in the market.

GLOBAL OIL & GAS DOWNHOLE CABLES COMPREHENSIVE MARKET: SEGMENTS

By type

the global market has been segmented into tubing encapsulated cable, fiber optic cable, electrical submersible pump cable, and others. The fiber optic cables market dominates all other segments due to their increased usage in temperature sensing and strain sensing applications.

By installation

the global market has been divided into overhead and underground, where overhead is expected to witness high growth due to cheap and easy installation.

By application

the global market has been segmented into oil & gas production, well monitoring, instrumentation & control, pressure sensing, data collection, and powering downhole equipment.

MARKET DYNAMICS

involving both economic as well as non-economic factors

Provision of market value (USD Billion) data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry with respect to recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market of various perspectives through Porter's five forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come
