## Abstracts

The FocusEconomics Consensus Forecast Malaysia condenses the macroeconomic projections provided by the leading international and national economic experts for Malaysia into one publication. The FocusEconomics Consensus Forecast Malaysia contains 5-Year forecasts for the main economic indicators such as economic growth, consumption and investment, industrial production, retail sales, employment, inflation, interest and exchange rates, fiscal balance, and balance of payments and foreign trade. The publication is designed for the busy executive: summaries, bullets, tables and charts enable the reader to access the needed information in the shortest time possible.
