Abstracts

Nanotechnology and nanomaterials are key enablers for a whole new generation of products and processes, some of which have come onto the market in 2014 in sectors such as consumer electronics.

The Nanotechnology Industry Review and Prospects Report is a comprehensive guide to materials, markets and products in nanotech over the past 12 months and future developments. This publication details leading developments within the industry during this period.

2014 witnessed numerous major advances enabled by nanomaterials in consumer electronics (quantum dots), medicine and coatings technology. The number of nanocellulose and graphene producers and applications developers has grown significantly. Other 2D nanomaterials are now the focus of widespread research.

The Nanotechnology Industry Review and Prospects Report focuses on the leading nanomaterials under development, with coverage on carbon nanotubes, graphene, quantum dots, nanocellulose and other key markets such as titanium dioxide nanoparticles and nanosilica. There are contributions from leading nanotech companies in the materials and coatings sectors, allowing readers a unique market insight into these exceptional materials.

All the key breakthroughs and business developments in 2014 in graphene, carbon nanotubes, nanomedicine, nanocellulose, nanocoatings, nanomaterials regulation, nanowires, quantum dots and energy are covered. This publication provides a comprehensive review of the state of the nanotech sector at present, its development, and future prospects. Strategic analysis of the key global markets nanotech will impact

is the core theme.

Contents

KEY MARKETS

Nanomaterials in the Li-ion battery market
The graphene market
Keys to success in graphene
Graphene in healthcare
Nanomaterials in 3D printing
Nanomaterials in Displays
Nanomaterials in Filtration
Nanomaterials in Energy
The Nanocoatings Market
Anti-fingerprint nanocoatings
Nanocoatings in the automotive industry
Nanocoatings in aerospace and aviation
Nanocoatings in construction and exterior protection
Nanocoatings in consumer electronics
Nanocoatings in sanitary and cleaning
Nanocoatings in the oil and gas sectors
Nanocoatings in the marine industry
Nanocoatings in the textile industry
Medical nanocoatings
Waterproof nanocoatings
Quantum Dots in Displays

KEY MATERIALS

Self-Healing nanocoatings
Gold nanoparticles
The Carbon nanotubes market
Single-walled carbon nanotubes
Fullerenes
Nanosilver
Nanowires in electronics
Nanozirconia producers
Titanium dioxide nanoparticles
Nanoparticle inks for printed electronics
Plasma nanocoatings

Nanosilica
Cellulose nanocrystals

KEY NEWS

Graphene industry developments in 2014
Nanomedicine industry developments in 2014
Nanomaterials regulation in 2014
Carbon nanotubes industry developments in 2014
Nanowires industry developments in 2014
Quantum dots industry developments in 2014
Nanocoatings industry developments in 2014
Nanoenergy industry developments in 2014
Nanocellulose industry developments in 2014

I would like to order

Product name: Nanotechnology Industry Review and Prospects: Key Technologies and markets in 2015 and Beyond

Product link: <https://marketpublishers.com/r/N9113568344EN.html>

Price: US\$ 390.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/N9113568344EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
