Abstracts

This report presents a comprehensive overview of the crustaceans industry in Belarus and a forecast for its development in the next five years. It provides a detailed analysis of the industry, its dynamics, structure, characteristics, main players, growth and demand drivers, etc. This is the most detailed and comprehensive report about the crustaceans industry in Belarus currently available!

The purpose of the report is to describe the state of the crustaceans industry in Belarus, to present actual and retrospective information about the volumes, dynamics, structure and characteristics of catch, imports, exports and consumption and to build a forecast for the industry in the medium term. In addition, the report presents an elaborate analysis of the main industry participants, the price fluctuations, growth and demand drivers of the industry and all other factors, influencing its development.

This research report has been prepared using the unique WMStrategy's methodology, including a blend of qualitative and quantitative data. The information comes from official sources and insights from industry experts (representatives of the main industry participants), gathered by semi-structured interviews.

The report on the crustaceans industry in Belarus includes:

Analysis and forecast for the economy of CIS countries;

Analysis and forecast for the agricultural industry in CIS countries;

Analysis and forecast for development of the industry volume (industry size), value and dynamics;

industry breakdown (by origin, by product types/end use segments, etc.);

Volume, dynamics and analysis of domestic catch (past, current and future);

Analysis of price levels (wholesale, retail, distributors, etc.) and their dynamics (past, current and future);

Volume, dynamics and analysis of imports (past, current and future);

Volume, dynamics and analysis of exports (past, current and future);

Volume, dynamics and analysis of consumption (past, current and future);

Characteristics of the main industry participants (manufacturers, distributors, wholesalers, retailers, importers, exporters, Governmental structures, etc.) and the competitive landscape;

Profiles of the main companies, producing crustaceans in Belarus;

Value chain analysis and structure of price formation;

Analysis of the factors, influencing the industry development (industry growth drivers, restraints, recent state programs, etc.);

Analysis and forecast of the trends and levels of supply and demand on the industry;

Forecast for the industry development in the medium term (including three possible scenarios for development).

This report will allow you to:

Quickly and cost-effectively gain competitive intelligence about the industry;

Track industry data, including size, value, segmentation, forecasts, dynamics and structure ? past, present and future;

See the exact usage of crustaceans in Belarus by main end use segments and product groups in the last five years and a forecast for its development in the

medium term;

Find out the most promising products and markets within the industry (by end use);

Strategically assess the competitive position of each of the main domestic producers;

Track and identify key industry trends, opportunities and threats and key drivers behind recent industry changes;

Strategically assess industry growth potential, demand drivers and restraints on the industry;

Evaluate the key macroeconomic indicators to get insight into the general trends within the economy;

See how the industry performed in the past (over the last 5 years) and how it will perform in the future (in the next 5 years);
