The report on the global molluscs industry includes:

Analysis and forecast for the global economy and demographics;

Analysis and forecast for the global agricultural industry

Analysis and forecast for development of the industry volume (industry size) and dynamics;

industry breakdown (by region, by country, by product groups/end use segments, etc.);

Regional and country information - breakdown by regions and countries for all major indicators, showing the exact volumes for each individual region and country, covered in the report;

Volume, dynamics and analysis of catch (past, current and future);

Analysis of price levels (wholesale, retail, distributors, etc.) and their dynamics (past, current and future);

Breakdowns of prices by main regions;

Volume, dynamics and analysis of imports (past, current and future);

Volume, dynamics and analysis of exports (past, current and future);

Volume, dynamics and analysis of consumption (past, current and future);

Characteristics of the main industry participants (manufacturers, distributors, wholesalers, retailers, importers, exporters, Governmental structures, etc.) and the competitive landscape;

Profiles of the main companies, producing molluscs globally;

Value chain analysis and structure of price formation;

Analysis of the factors, influencing the industry development (industry growth drivers, restraints, recent state programs, etc.);

Analysis and forecast of the trends and levels of supply and demand on the industry;

Analysis of the major trade flows;

Forecast for industry development in the medium term.

This report will allow you to:

Quickly and cost-effectively get a strategic analysis and gain competitive intelligence about the industry;

Get a complete overview of the industry volume in each global region and 152 countries;

Track industry data, including size, segmentation, forecasts, dynamics and structure ? past, present and future;

See the exact usage of molluscs globally by main end use segments and product groups in the last five years and a forecast for its development in the medium term;

Find out the most promising products and markets within the industry (by end use);

Find out the most promising supplying country;

Strategically assess the competitive position of the main global producers;

Get and compare information at both aggregate level (for the whole region) and for each individual region and country, covered in the report;

Explore and identify new industry opportunities in the countries and regions within the industry;

Track and identify key industry trends, opportunities and threats and key drivers behind recent industry changes;

Strategically assess industry growth potential, demand drivers and restraints on the industry;

Evaluate the key macroeconomic indicators to get insight into the general trends within the economy;

See how the industry performed in the past (over the last 5 years) and how it will perform in the future (in the next 5 years);

Get acquainted with the leading companies on the industry;

Evaluate how diversified the industry is in terms of competitive intensity, fragmentation and environment and understand competitive threats;

Empower your marketing, branding, strategy and industry development, consumption and supply functions with useful industry insights;

Build your investment strategy by assessing industry attractiveness or company attractiveness;

Build your own industry entry or industry expansion strategy or evaluate your current strategy;
