Abstracts

The AS9100 internal auditor training Rev C is available both in online and classroom training modes. This is essential for companies that have developed and are implementing an AS 9100 D Quality Management System. Clause 9.2 of AS9100D requires organizations to conduct internal audits at planned intervals. The objective of this training is to provide information on whether the QMS conforms to your own requirements for the QMS and those of the AS standard. Training is essential to accomplish this important next step.

Use this training to train your auditors and give them practice with each step of the audit process. It can be used over and over within the organization. The training is intended for the persons in an organization selected as the lead auditors and the auditors who will be conducting internal audits in an objective and impartial manner. Each of the components contains a considerable amount of detail. The training uses a practical hands-on approach, is presented in plain English and is intended to educate and provide the auditors with the necessary knowledge and skills to successfully complete internal audits. The participants will be able to work in a workshop setting with a trainer over a period of 12 to 16 hours and cover the training materials.

The Trainer's Guide contains everything the trainer needs to lead the class.

The Student Manual contains everything the trainees need to participate in the class.

PPT – Guide to Internal Auditing AS 9100 D contains 24 slides to set the stage for the audit.

PPT – Requirements of AS 9100 D has 150 slides that provide the students with an understanding of the requirements of the standard.

The PPT – Steps to an AS 9100 D Internal Audit contains 33 slides that outline the internal audit process and prepare the students to conduct an audit of Aero~Tech Inc.

The ATI – Documented Information is included in a 48-page file that the students will need to refer to during the internal audit of ATI.

The Certificate of Completion is presented to the students who have satisfactorily understood the material and have actively participated in the training.

Steps to AS9100 Certification
