Abstracts

IATF 16949:2016 PC-based employee training can be customized with your organization's logo. IATF 16949 requires the organization to "ensure that its personnel are aware of the relevance and importance of their activities and how they contribute to the achievement of the quality objectives".

The course is intended for ALL of the employees in an organization so they understand the importance of IATF 16949 and their role in meeting the requirements.

The participants will be able to work at their own pace and will be required to pass quizzes throughout the training. Upon successful completion of the quizzes, they can print a Training Certificate.

This course will educate them on:

What is an IATF 16949 Quality Management System?

Why is my organization involved with IATF 16949?

What does IATF 16949 require?

How does it impact me and how can I impact quality?

What and why are people auditing?

The training meets the requirements of the IATF 16949 standard:

Employee Awareness – explains the Quality Management System

Record of Training – The student will receive a certificate upon completion

Training Effectiveness – It includes quizzes to ensure the student comprehends the information before moving onto the next section.

Contents

It contains the following areas:

What is ISO/TS 16949?

What are its merits and importance?

What are its underlying principles?
