Date: July 2017

Pages: 100

Price: US\$ 697.00 (Single User License)

ID: ID0A1E5F816EN

## Abstracts

Using the TS 16949 small business package helps a small business become IATF 16949-certified. IATF's All in One Documentation and Training Package is IATF's most popular product. It gives companies everything they need to prepare for registration. But if you don't plan to train your internal auditors, the Small Business Package is tailored especially for you. Some companies don't need to train their internal auditors because

There are trained auditors on staff

They will be trained elsewhere

An outside consultant will perform the audits, at least for the first year

There are not enough employees to perform internal audits (NOTE: IATF 16949 does not allow someone to audit their own work)

With this IATF 16949:2016 Small Business Package your end product will be a quality system that works for you and helps your company continually improve its processes and customer satisfaction.

Package has been used by companies across the globe since 2001

Has never failed an audit

Auditors love the efficient and effective design

Major OEM's and Registrars recommend our product!

Save time:

The documented Quality Management System (QMS) is organized for you. Quality Manual, Procedures & Forms are fully written and ready for you to customize. They contain guidance so you know what to edit and examples are provided.

Save money:

No need to hire consultants to develop your system or to train your employees.

Training of requirements of the standard on how to implement them.

Gives the option to train your organization's employees in house through PowerPoint training that comes with trainer's guide and detailed speaker's notes or self-train your employees with convenient online training.
