Abstracts

Acrylonitrile Butadiene Styrene (ABS) is an engineering thermoplastic, amorphous polymer. ABS is an ideal material of choice for various structural applications, because of its high rigidity, good impact resistance, even at low temperatures, good insulating properties, good abrasion and strain resistance and high dimensional stability - mechanically strong and stable over time. According to Gen Consulting Company, the acrylonitrile butadiene styrene market in China, in terms of revenue, is anticipated to progress at a CAGR of 4.7% during the forecast period, 2022-2028.

This industry report offers market estimates of the China market, followed by a detailed analysis of the application. The China market data on acrylonitrile butadiene styrene can be segmented by application: appliances, automotive, building & construction, consumer electronics, consumer goods, others.

The China acrylonitrile butadiene styrene market is highly competitive. The competitive landscape of the industry has also been examined along with the profiles of the key players Ashland Inc., BASF SE, Chi Mei Corporation, Covestro AG, DuPont de Nemours Inc., Formosa Plastic Corporation, INEOS Styrolution Group GmbH, Kumho Petrochemical Co. Ltd., LG Chem Ltd., Saudi Basic Industries Corporation (SABIC), Teijin Limited, Trinseo S.A.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive coverage of the market across different market segments, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the China Acrylonitrile Butadiene Styrene Market

Identify segments/areas to invest in over the forecast period in the China Acrylonitrile Butadiene Styrene Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.
