Abstracts

Biomedical materials are materials that are used in the field of medicine and healthcare to replace, repair, or enhance damaged or diseased tissues and organs. These materials can be natural or synthetic, and can be used for a wide range of medical applications, including orthopedics, dentistry, cardiology, and tissue engineering. Biomedical materials are designed to be biocompatible, meaning they do not cause an adverse reaction when they come into contact with living tissue. They can be engineered to have specific properties, such as strength, flexibility, and biodegradability, to meet the specific needs of different medical applications. According to the latest data, the market size of the biomedical materials industry in China is expected to rise by USD 63.8 billion with a CAGR of 13.7% by the end of 2029.

This industry report offers market estimates of the China market, followed by a detailed analysis of the material type, and application. The China market data on biomedical materials can be segmented by material type: metals, polymers, others. Biomedical materials market is further segmented by application: cardiovascular diseases, orthopaedics, plastic surgery, others.

The prominent players operating in the China biomedical materials market include China Kanghui Holdings Inc., Double Medical Technology Inc., Jiangsu Yuwell Medical Equipment & Supply Co. Ltd., MicroPort Scientific Corporation, Shandong Weigao Group Medical Polymer Company Limited.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive coverage of the market across different market segments, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the China Biomedical Materials Market

Identify segments/areas to invest in over the forecast period in the China Biomedical Materials Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. SUMMARY

PART 2. INTRODUCTION

Study period
Geographical scope
Market segmentation

PART 3. BIOMEDICAL MATERIALS MARKET OVERVIEW

PART 4. MARKET BREAKDOWN BY MATERIAL TYPE

Metals
Polymers
Others

PART 5. MARKET BREAKDOWN BY APPLICATION

Cardiovascular diseases
Orthopaedics
Plastic surgery
Others

PART 6. KEY COMPANIES

China Kanghui Holdings Inc.
Double Medical Technology Inc.
Jiangsu Yuwell Medical Equipment & Supply Co., Ltd.
MicroPort Scientific Corporation
Shandong Weigao Group Medical Polymer Company Limited

PART 7. METHODOLOGY

I would like to order

Product name: Biomedical Materials Market in China 2023

Product link: <https://marketpublishers.com/r/B44C61E258C3EN.html>

Price: US\$ 900.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
