Abstracts

An unmanned aerial vehicle, commonly known as a drone, is an air vehicle and associated equipment that does not carry a human operator, but instead is remotely piloted or flies autonomously. Unmanned aerial systems are increasingly integrating into today's airspace, providing unrivalled intelligence, surveillance and reconnaissance data for both military and civil applications. The commercial unmanned aerial systems market in Middle East is likely to register a CAGR of over 9.8% with an incremental growth of USD 532 million during the forecast period 2022-2028.

This industry report offers market estimates of the Middle East market, followed by a detailed analysis of the platform. The Middle East market data on commercial unmanned aerial systems can be segmented by platform: consumer, prosumer, professional, others.

The Middle East commercial unmanned aerial systems market is highly competitive. As of 2021, the major players in the Middle East commercial unmanned aerial systems market were Aerobotics (Pty) Ltd., AeroVironment Inc., FalconViz LLC, Flytrex Inc., Geodrones Australia Pty Ltd., Israel Aerospace Industries Ltd. (IAI), SZ DJI Technology Co. Ltd., Urban Aeronautics.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive coverage of the market across different market segments, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the Middle East Commercial Unmanned Aerial Systems

Market

Identify segments/areas to invest in over the forecast period in the Middle East Commercial Unmanned Aerial Systems Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
